- *January 1, 2013 to March 31, 2013 = 106*

Combined training hours for the month of March 2014 = 346.

Answer to question from last month about brakes not being checked. The dealership stated they write "*brakes not inspected*" on the invoice is for legal reasons since brakes cannot be thoroughly checked unless the wheels are removed. Beginning at the next PM the brakes will be checked since the tires will be rotated each time it is brought in for a scheduled maintenance.
